About Us

Sai Machinery Company is well-recognized in the market for its experience in selling highly-technological industrial machinery such as Linear Sensor, KPM Myne Tech Linear Scale Mynotech, Linear Transducer, Injection Moulding PLC, Linear Potentiometer, etc. Our mission continues to focus on supplying precision quality reliable machinery to an companies where high-quality efficiency-based economies are required. Our strategic focus on sourcing the best products from reputable manufacturers in China ensures that we deliver innovative, state-of-the-art solutions to our customers. The mission of Sai Machinery Company is being driven to enhance operational excellence through superior products offerings and exceptional service.

New Delhi, India based Sai Machinery Company welcomes you! For the past one decade, we have been catering to the market demands for Linear Sensor, Injection Moulding PLC, Linear Potentiometer, KPM Myne Tech Linear Scale Mynotech, Linear Transducer, and many other products. We are trading in these products and winning hearts for their fluent performance, robust construction and durability. We also delight customers by providing one year replacement guarantee on all products. We are proud of the fast and reliable logistics that enable us to make prompt deliveries of products for our clients at various points across the regions. Timely supply chain due to strong partners with logistics companies ensures safety in delivery products. With us, the time of reaching equipment shall never be your concern.

Key Facts

No of Staff	10
Year of Establishment	2014
OEM Service Provided	No

Our Products

Porcheson Servo System

KTM Series MYNE TECH Linear Sensor

Porcheson PLC MS 500-MS 210 A For Plastic

KTF Slider Type Myne Tech Linear

Injection Moulding PLC

Porcheson PLC For Vertical Injection

LTC Rod Type Linear Scale Mynetech

KPC Series MYNE TECH Linear Potentiometer
