

Manufacturer and Supplier of

HYDROGEN GAS DETECTOR

01_Industrial Hooter, 02_Industrial Hooter, 03_Industrial Hooter, 24 V Fire Detection Systems, Addressable Gas Detector, Ammonia Gas Detector, Blackline Safety Multi Gas Detectors G7C, Clean Room Oxygen Monitor, Digital Multi Gas Detector, Early Fire Smoke Warning Monitoring and Alarm System, Eight Channel Gas Monitoring System, Flame Detector System, Flame Proof Manual Call Point, Flammable Gas Detector, Gas Alarm Panel, etc.

RS24IGD-FLP-LED GAS LEAK DETECTOR

LPG GAS DETECTOR

RS24IG-FLP LED GAS DETECTOR

About Us

Trace Automation Pvt Ltd is one of the companies that have dominated the industry and dedicated itself to delivering superior safety systems by offering accurate gas detector systems and fire safety systems. Being a manufacturer and supplier, the company has guaranteed the credible and continuous surveillance of the industrial and specialized settings. Trace Automation offers a solution to risks by integrating the maximum accuracy of sensing and speedy warning systems that allow organizations to actively control hazards and threats to people, assets, and processes. Its product line comprises of lpg gas detector, hydrogen gas detector, ammonia gas detector, lpg gas leak detection system, clean room oxygen monitor, trace oxygen detector, gas monitoring panel, hooter cum strobe, and fire detection system that are designed to operate effectively and integrate efficiently with the current infrastructure.

Trace Automation Pvt Ltd is one of the companies that have dominated the industry and dedicated itself to delivering superior safety systems by offering accurate gas detector systems and fire safety systems. Being a manufacturer and supplier, the company has guaranteed the credible and continuous surveillance of the industrial and specialized settings. Trace Automation offers a solution to risks by integrating the maximum accuracy of sensing and speedy warning systems that allow organizations to actively control hazards and threats to people, assets, and processes. Its product line comprises of lpg gas detector, hydrogen gas detector, ammonia gas detector, lpg gas leak detection system, clean room oxygen monitor, trace oxygen detector, gas monitoring panel, hooter cum strobe, and fire detection system that are designed to operate effectively and integrate efficiently with the current infrastructure. The systems provide clear alerts, simple functioning, and customizable systems to suit various needs, staying within the tight safety regulations and ensuring efficiency of operations.

Key Facts

No of Staff	15
Year of Establishment	2004
No of Production Lines	1
OEM Service Provided	No

Our Products

Residential Gas Leak Detector

Addressable Gas Detector

Smart Oxygen Gas Detector

Oxygen Gas Detector

Ammonia Gas Detector

Portable Multi-Gas Detector 4 Channel

LPG Gas Detector

Smart Gas Transmitter Combustible

Blackline Safety Multi Gas Detectors G7C

Lpg Gas Leak Detection System

Infrared Hydrocarbon Gas Detector

Ozone Gas Detector

Hydrogen Gas Detector

Ammonia Gas Detector

LPG Gas Detector

Portable Gas Detector PS200

ADDRESS

**CST No. 414, Guruwar Peth,
Jaishankar Heights, Flat No.201,
2nd Floor, Gauri Ali Lane, Pune,
Maharashtra, India (411042).**
