Swayam is an indigenously developed comprehensive digital healthcare system, comprising a full spectrum range of Point Of Care (POC) testing & services in varied form factors to make healthcare accessible anytime, anywhere to everyone at affordable cost. Winner of Graham Bell Award for Innovation in Health (2018), SWAYAM is also the only AHM (Anytime Health Monitoring) system to be extensively tested and validated for accuracy and performance under supervision of expert

medical authorities at Government HWCs and private medical institutes in different states of the country.

Swayam is a means to build a healthcare ecosystem where-in regular self monitoring and routine checkups become a culture. The idea is to steer diagnostics from Treatment-based criteria to a Prevention-based practice in order to build a healthier society.

swayam | CSR

Empowering Communities, changing lives. Together, we build a healthier future

LEVERAGING OUR EXPERTISE AND RESOURCES IN HEALTH,
WE AIM TO CREATE A POSITIVE IMPACT ON COMMUNITIES.

Why Swayam for CSR

- Focuses on early detection & prevention, not just treatment
- Creates long-term healthcare access, not one-day health camps
- Reaches underserved & high-need communities
- Delivers measurable, auditable CSR impact
- Strong alignment with preventive & primary healthcare goals

Why Swayam for CSR

- Converts CSR spend into healthcare infrastructure
- Scalable across villages, factories, schools & communities
- Customizable programs for women, elderly, workers & rural populations
- Builds sustainable social ROI, not one-time charity

How Swayam Enables CSR Impact

- Deploys Health Pods / Health Bags as first point of care
- Enables regular preventive screening
- Connects beneficiaries to doctors via tele-medicine
- Ensures referrals & follow-ups, not dead-end screening
- Provides data, dashboards & CSR reports for compliance
