About Us

Parshwa Technologies Private Limited is a trusted provider of advanced solutions for managing currency and verifying precious metals. They have specifically worked as both a manufacturer and supplier in order to help their customers provide accurate, quick and secure services to their respective clients on a daily basis. The company's focus is strongly based on innovation and performance, which allows them to create solutions that will help make complicated tasks easy to perform with consistent, reliable results regardless of the type of business being done. Each of their products includes a gold tester, note counting machine and note sorting machine, all equipped with state-of-the-art detection technologies that will further enhance operational efficiency while minimizing manual labor as well as eliminating the risks associated with false-positive results or inaccurate verification. All of these machines are designed to have an easy-to-use interface and compact size; therefore, they can be operated quickly without the use of excessive amounts of space.

An in-depth analysis of the ever-changing market demands will continuously improve design and functionality. Fast processing power allows the user to process high volumes of data with ease. Tough construction will guarantee that performance will last, even under harsh environments. The goal of all designs is to provide the best quality of output consistently with few interventions, allowing companies to put their energy towards growing rather than overcoming operational difficulties. The company also employs a team of highly skilled professionals who will ensure that all solutions conform to today's business expectations. Energy-efficient operation and low maintenance requirements contribute to the overall cost efficiency of these tools, making them an ideal solution for small and large enterprises. Flexibility will remain a core strength of the company's offerings, making it easy to incorporate into diverse industries such as finance, retail, jewellery and many types of financial services.

Key Facts

No of Staff	60
Year of Establishment	2010
OEM Service Provided	No

Our Products

XRF-350 Gold Testing Machine

XRF-750S Gold Testing Machine

PA-610CIS Note Counting Machine

PA-523 Note Counting Machine
