About Us

Aqualux Pool Products Private Limited is a reliable trader and supplier of Automatic Cleaner Explorer, Polyester Sand Filter, Centrifugal Pump, Liner Vacuum Head, Standard Handrail Ladder, and more. Our top goal is to maintain the quality of the water in pool and spa. To that end, we rigorously evaluate all of our products to make sure they are simple to install, low maintenance, and offer long-term pool and spa care. Being a quality-focused company, we have implemented a number of industry-recommended quality control procedures to guarantee that the market is supplied with error-free products. To ensure global quality standards, our complete product range is put through rigorous testing, including hardness tests, visual inspections, and more. The entire product line is created and developed under the strict oversight of knowledgeable quality controllers, who guarantee that the finished goods meet predetermined requirements for quality.

In 2010, Aqualux Pool Products Private Limited was established. Since then, we have been trading and supplying a wide range of items like Portable Swimming Pools, FRP Swimming Pool, Vacuum Hose Pipe, Industrial Swimming Pool Telescopic Pole, Underwater LED Light, and more. Our company, which is situated in Bangalore, is committed to providing top-notch pool and spa accessories and equipment. At our company, standards for quality and service are the norm. We genuinely think that our primary strength is this attention to quality. Our combined years of experience put us in a much better position to provide clients with the greatest items at the most affordable costs.
