About Us

We are Acier Infra-a Maharashtra based business that has almost revolutionized the way customers think about portable and prefabricated buildings and structures. We offer Portable Office Cabins, Office Containers, Prefabricated Houses, Portable Bunk Houses and Portable Security Cabins to suit various spatial needs. Traditional brick-and-mortar construction do not offer the flexibility of rapid deployment of setups. As opposed to brick-and-mortar construction, our affordable housing structures deliver many advantages, from quick assembly, erection to easy pricing. They can also be installed and dismantled in remote locations, and temporary project setups, and fitted with modern amenities as requested. Today, as a market leading manufacturer and supplier of prefabs, we have joined hands with many quality-conscious and budget-conscious consumers and businesses from around the domestic market.

Acier Infra is a company steered by Mr. Nadeem Khan that specializes in providing Portable Office Cabins, Portable Security Cabins, Prefabricated Houses, Office Containers, etc., from Thane, Maharashtra.
