क्रमांक : 022115615
SL No :

पेटेंट सं. / Patent No. : 388392
आवेदन सं. / Application No. : 202021043586
प्रद्वल करने की तारीख / Date of Filing : 07/10/2020
पेटेंटी / Patentee : CHANDANE GIRISH NATHURAM

प्रमाणित किया जाता है कि पेटेंटी को उपरोक्त आवेदन में बचाप्रकटित CELLSAFE MULTIFLOW ELECTRONIC AND MAGNETIC WATER CONDITIONER. नामक आविष्कार के लिए, पेटेंट अधिनियम, 1970 के उपबंधों के अनुसार आज तारीख 7th day of October 2020 से बीस वर्ष की अवधि के लिए पेटेंट अनुदान किया गया है।

It is hereby certified that a patent has been granted to the patentee for an invention entitled CELLSAFE MULTIFLOW ELECTRONIC AND MAGNETIC WATER CONDITIONER. as disclosed in the above mentioned application for the term of 20 years from the 7th day of October 2020 in accordance with the provisions of the Patents Act, 1970.

अनुदान की तारीख : 03/02/2022
Date of Grant :

पेटेंट नियंत्रक
Controller of Patent

टिप्पणी - इस पेटेंट के नवीकरण के लिए फीस, यदि इसे बनाए रखा जाना है, 7th day of October 2022 को और उसके परन्तु प्रत्येक वर्ष में उसी दिन देना होगा।
Note. - The fees for renewal of this patent, if it is to be maintained will fall / has fallen due on 7th day of October 2022 and on the same day in every year thereafter.

Autofill Systems

Why Only Us??????.....

We are the first and only company holding a patent issued by the Government of India. Moreover, another 6 patents are in process!

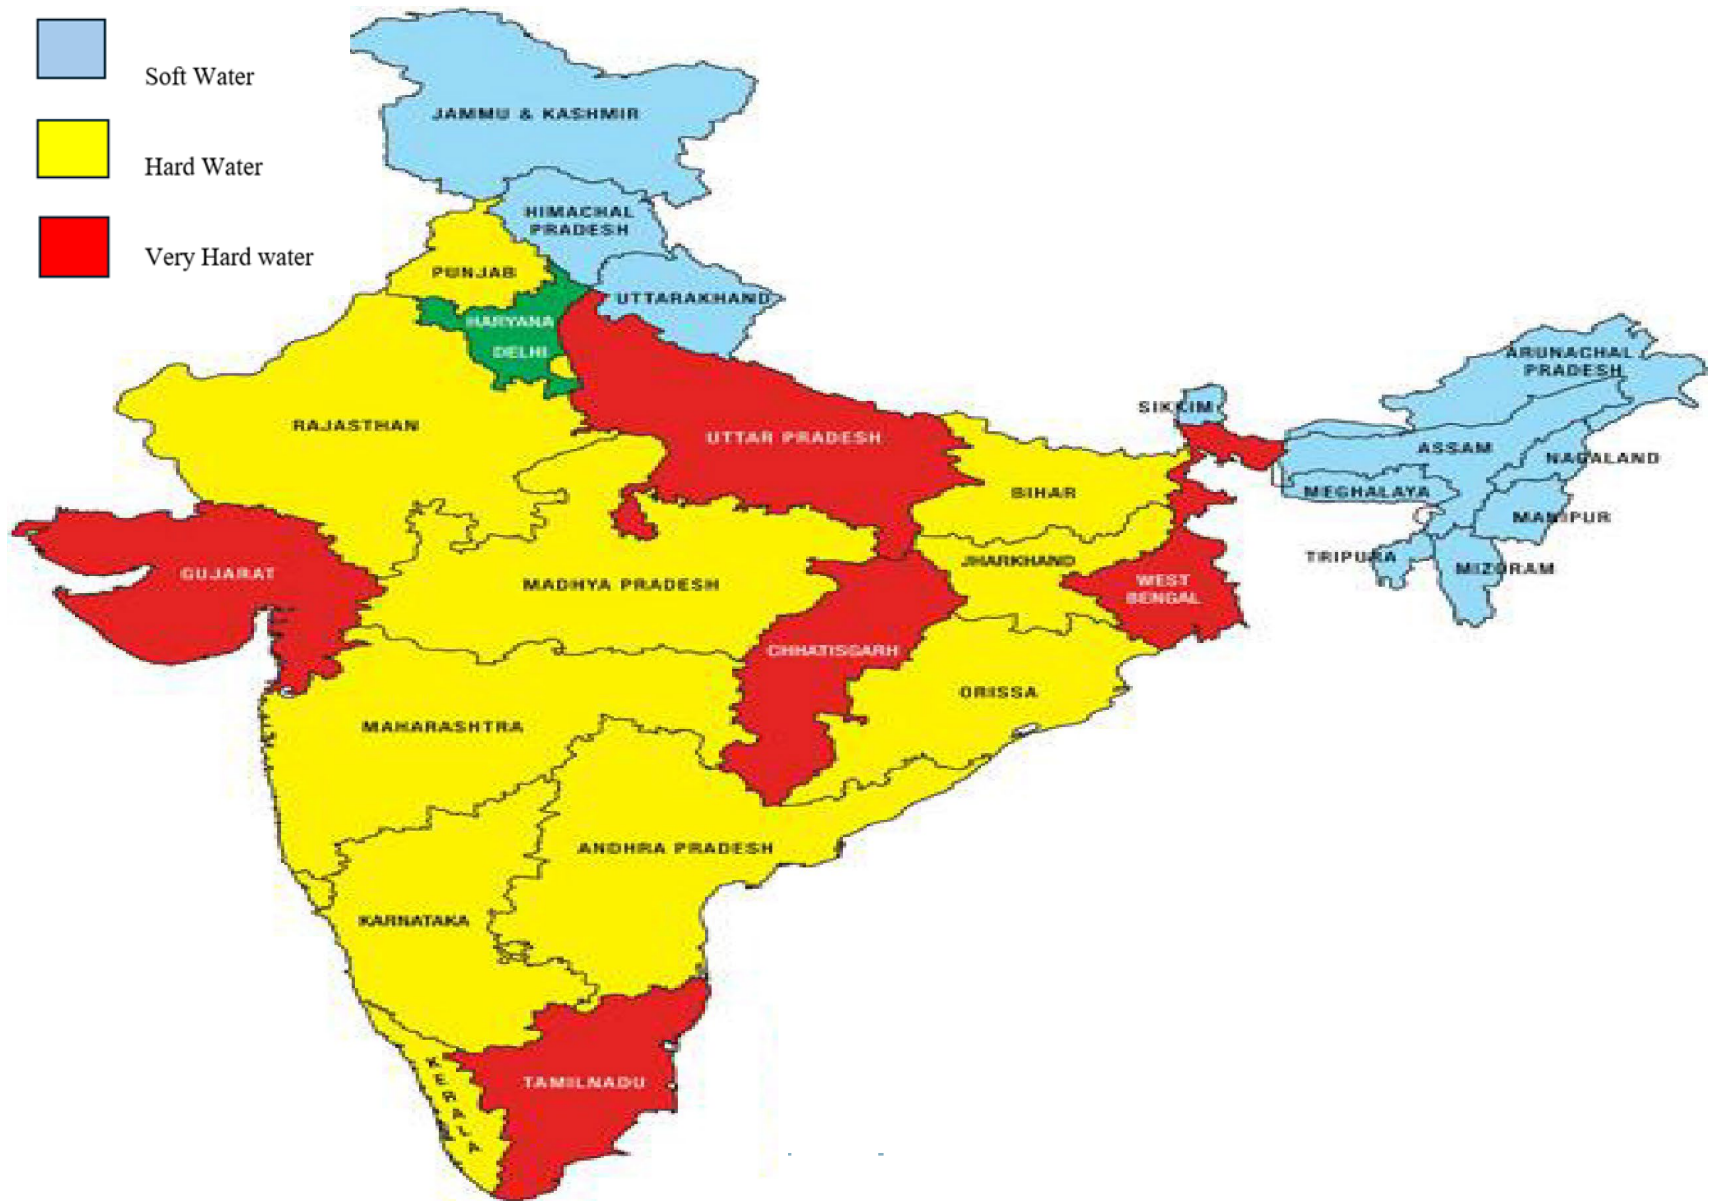

We are manufacturers of this unique and novel product which is Made in India and we do not depend on anyone for technological support. We are very thorough and sound with our technical knowledge and expertise of this product. All because of 25 years of innovative product research, invention, and manufacturing experience.

- Our Focus Is Very Very Clear,

*“Perfecting
Water
Conditioners”*

• More than 70 to 80 % of India is affected by "moderately hard" to "very hard" water.

- Soft Water
- Hard Water
- Very Hard water

We do a simple thing.

We physically treat your hard water. Without any recurring cost. Users will get soft water which is nothing but a miracle for Agricultural, Domestic and Industrial use.

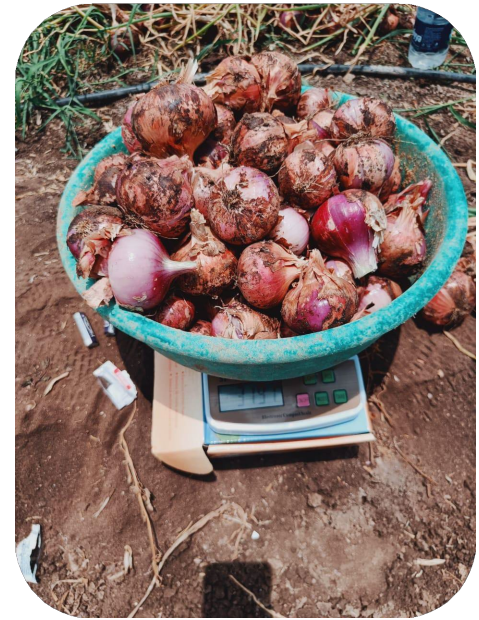

- *Our focus is on the agricultural segment.*
- Hard water is a huge issue in agriculture all over India and World. Day by day, water becomes very hard for any agriculture.
- We have thousands of farmers using water conditioners with AMAZING MIRACLE results.
- These are some examples.

- Case study 1:
- Vithal Pawar from Solapur invested ₹.70,000 And ROI per year increased to ₹.18 lakh on 30 acres of land.
- Sugarcane crop increased from 55 tons to 80 tons per acre. In the last four years, the total ROI is ₹.72 lakhs and still counting.
- Case study 2:
- Subash Gangthade, a farmer from Pandharpur, district Solapur, can now save 50% water. Yes, that's correct. 50% using water conditioner technology.

- Case study 3:
- Shri Dusande from Ahmednagar district invested ₹.35000, and his ROI increased to ₹. 350,000 in 5 months on tomato crops.
- Case Study 4:
- Urmil Gala from Kutch, Gujarat began using water conditioners for three years and he is getting amazing results in every crop.
- Case Study 5:
- Shubham Pansare from Solapur district needed to use a 55-hp tractor for farming as the soil was very hard. Now, only 28 HP tractors are being used since the soil has become very soft and porous. He used our Water Conditioner device to irrigate his farmland and the soft water converted his hard soil soft.

Two outstanding miracle case studies :

- Farmer named Mr.Kolte from Buldhana district of Maharashtra, was able to save ₹.6,00,000 (investment for 2 km pipeline and good quality river water for soil improvement.) We can affirm that we make ARTIFICIAL RAINWATER because our treated water almost works like rainwater. And here's the best part, **we do not use any chemicals and there are no recurring costs!**
- Farmer named Shri Shende tried to get onion crop in during an ambient temperature of 43 – 45 degrees Celsius. But because of the water conditioner, the roots developed so nicely that it solved the 45-degree ambient temperature issue. We can now safely affirm that **we have the solution to fight Global Warming in the Agricultural segment!**
