

AN INTRODUCTION

New improvements in the pharmaceutical formulations segment have been instrumental in India's huge success as a worldwide exporter. Owing to this, the domestic pharmaceutical industry has been growing at record levels and has been expanded into a number of fields. With

an experience spanning almost two decades in the healthcare industry,

SCHWITZ BIOTECH offers a wide range of formulations to meet the needs of the ailing humanity. Headquartered at Ahmedabad, we are a name to reckon with in the pharma horizon across India and Globally at large. We are a leading manufacturer, exporter, marketing and Project Consultant of a wide range of pharmaceutical formulations in Tablets, Capsules, Syrup, Injections, Ointment, Soft gels and

Small & Large volume parenterals and other segments like Nutraceuticals, Homeopathy, Herbal preparations, Disposable surgical & Innovative API's.

CORPORATE PROFILE

SCHWITZ BIOTECH has gained recognition as a global healthcare organization, driven by qualified people with advanced research & technology and innovative ideas supported by technocrats, state of the art technologies & knowhow and large business promoters and associates from India and Abroad.

OUR PHILOSOPHY

In the 21st Century, Life brings New Challenges. It is hectic, strongly adaptive, endorsing Darwin's Theory of Evolution, increasing threshold in endurance, achievements, tireless working, and exploring new horizons. Old records are surpassed. New avenues, greater heights are scaled. Homo sapiens have faced squarely all the challenges from the Natural phenomenon to man made hazards, from external hosts to internal parasites.

To make life more meaningful, worthy and full of pleasure is our philosophy. "We contribute so as to Spread Infectious Smile to the mankind." This being our destiny, all our actions are towards this Goal.

OUR QUALITY CONTROL

Quality is not a Departmental Obligation. It is significant to everything and everyone in the Organization. To ensure Total Quality Management, our Quality Assurance Department is autonomous in its functioning. In house Quality checks, which have been detailed in Standard Operating Process (SOP) as per the WHO-GMP norms & have been drawn up in recommendations specified in the US, British & Indian Pharmacopoeias, for each of the operations.
