Madhusudan Patel
Managing Director

Dear Patron,

It gives me immense Pleasure to inform you that Niki has been offering hi-quality & long-lasting Doors, Plywood, Door Frames, WPC Doors & Frames, since 1995 that add a touch of elegance to your interiors & exteriors.

We are truly grateful to all our customers, architects, builders, engineers, interior decorators, dealers & distributors, project consultants, carpenters, employees, friends & well-wishers for the constant support in our success journey.

We rededicate ourselves to serve you with even more enthusiasm, commitment, integrity & innovative outlook to offer better variety of new & contemporary door designs & products that suit individual requirement.

*Thank You once again for the
Opportunity to serve you.*

Since 1995

ABOUT US

For
DOORS

For PLYWOOD &
BLOCK BOARD

For WPC
PRODUCTS

Niki has been a leading provider of wide range of doors, plywood, WPC doors & frames, timber frames and shutters since 1995.

with an experience of over 5 decades of serving happy customers - we are uniquely placed to offer a wide range of products at reasonable price, quality, service & commitment to our customers.

We are committed to total customer satisfaction. Hence, we offer 5 Years of unconditional warranty on more than 500 varieties of doors

We lay a great emphasis on Quality & Service. Our doors are designed to last long. Hence, our tagline Fix it Forget it. With our commitment towards the health of our customers - we use E1-eco-friendly waterproof glue, that conforms to European standards.

Niki has been growing because of its reliable after sales service. This has resulted in our existing customers recommending their near & dear ones to choose Niki products for their homes & offices.

Niki offers 30-50 mm thickness upto 8x4ft size, standard & custom designed Veneer, Laminate, Teknos Malaysian Primer Coated doors & WPC doors as per architect's design & interior requirements. This has been made possible with our addition of latest CNC Routing Machine & Italian ORMA Hot Press.

Niki is proud to announce Custom Designed Veneer, Laminate, Primer Coated & WPC doors as per architects' design & interiors. This is made possible with our addition of latest CNC Routing Machine.

We have always believed in building long-term relationships with our customers. This has resulted in our happy customers choosing us all the time for their door & other related requirements.

We are always focussed on continuous product innovation & design improvement to deliver latest products that meet ever changing taste of our customers. This has been possible as we seek constant feedback as well as our experience in the Wood Industry as timber wholesalers since 1970, doors and plywood trading & manufacturers since 1995.

Niki doors has made a significant contribution for over 25 years not only to people's homes but also to their lives by offering hi-quality, cost-effective and long-lasting doors, plywood, door frames, etc.,

Niki doors has been a pioneer in several aspects related to the Wood Industry in South India. One such example is Niki being a front-runner in offering 'ready-to-fix' doors in 1995 as well as WPC doors & frames with life-time guarantee since 2010.

Our carefully chosen raw materials & quality manufacturing processes ensure that they are strong & long lasting. This allows you to fix all the accessories such as door locks, hinges, tower bolts, door stoppers, handles, etc... with confidence. We offer a wide range of plywood - BWP for Kitchen & MR for general application. It comes with Termite & Borer proof life-time (7 years) guarantee.

Laminates are pressed using Italian make Hot Press with Jowat Glue (Germany) for strong adhesion, even finish & long life. We believe that doors are at the heart of every house. We put in our best effort to make sure that our doors are long lasting, add unique look & offer value-for-money.

Fix It... Forget It®

NDV - 01

NDV - 02

- ✦ Niki range of Decorative Veneer Doors are made of natural teak, walnut, wenge & many other veneer overlaid on BWP flush door.
- ✦ These BWP doors are extremely durable, easy to maintain and suitable for homes, offices, hotels & commercial establishments & are mainly used for main door, bed room, internal rooms and bath rooms. As veneer is produced from natural wood - the grains & shade may vary from door to door.

- ✦ DECOR Laminate Doors are specially designed laminate based doors. These doors are maintenance free doors.
- ✦ Laminate sheets are cut into different sizes and these laminates are then hot pressed using jowat German Glue on BWP flush door with different colour combination with a rich matte finish, giving the door a beautiful look.
- ✦ These doors are suitable for PG, hotels, schools, residential & commercial buildings, etc.

PRIMER DOORS

NPC - 401

NPC - 402

- ✦ Primer Coated Doors are Flush Doors made of Solid Timber or Particle wood fills with HDF face on both the sides. It is possible to make any kind of engraved design according to customer's choice.
- ✦ With a wide choice of designs, these doors can be stained to give a rich natural look or painted in custom shades to match the decor. Being paintable doors, they are cost-effective to maintain in the long term compared to Veneer Doors.
- ✦ These doors are suitable for homes, offices, hotels, PGs, hospitals & commercial buildings and are mainly used for main door, bed rooms as well as internal doors.

TIMBER SEASONING

Timber used for our doors are carefully selected & seasoned to remove moisture. This enhances the quality of doors & avoids warping in the long run.

FRAMING & FILLING

Our Flush Doors are made of Timber & Particle wood fills. We use the best in class Timber & Particle wood fills to make our Flush Doors.

Niki Flush Doors have great reputation to last long. We offer 3 kinds of fillings:

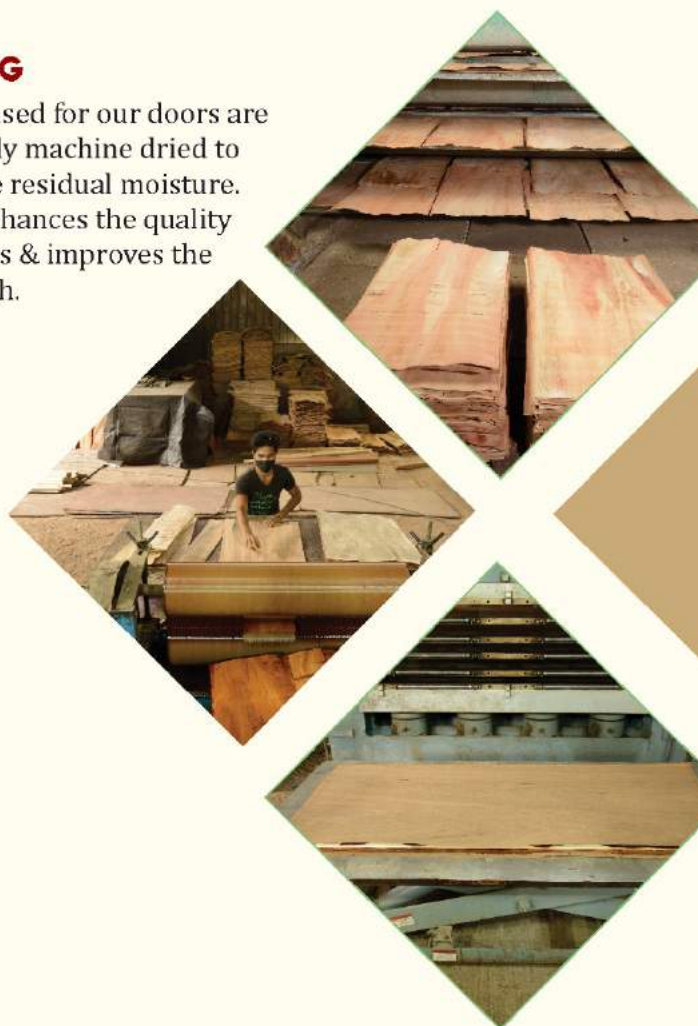

1. Pine or Neem wood Fillings
2. Particle Board/wood Fillings

CORE DRYING

CORE used for our doors are carefully machine dried to remove residual moisture. This enhances the quality of doors & improves the strength.

CORE GLUEING & HOT PRESS

It is the core of the door that matters! That's why we make sure that the Core is well glued using Glue of International Standards & hot pressed for better quality of bonding across the surface.

Since 1995

WELL STOCKED WAREHOUSE

All our doors, plywood, blockboards, door frame & window sections are manufactured using state-of-the-art technology. They are precision cut-to-size & chemically treated to be borer & termite proof (optional).

SIZING & FINISHING

We truly believe in customer satisfaction.
Therefore, we have built a 20000sq.ft.
warehouse in Bangalore to serve the ever
increasing needs of our customers on-time.

DO'S & DON'T'S

Five Years on Flush Door, Veneer Door, Laminate Door

All our Niki products had a warranty of TWO years & can only be claimed on producing original Bill.

***Warranty can be claimed for manufacturing defects only.**

For Doors made of Natural Benin Teak wood, the cracks are not covered under warranty.

Storage Instructions:

25 Years Warranty on all WPC Products against Self Damage Only

Doors must be horizontally stacked on flat Surface in cool & dry place. Doors must not be exposed to sunlight.

Installation & Fixing Instructions:

- ★ The Door Frame has to be fixed in 90° Angle
- ★ Do not trim more than 1" (25mm) on the Top & bottom of the Doors. Do not trim more than 1" (25mm) on the sides of Doors.
- ★ Lipping of teak, hardwood, PVC Head bidding fix on all the four sides has to be done compulsorily to prevent moisture absorption, wear & tear of the Door.
- ★ The door life increases by doing this. The applied warranty will become invalid if this instruction is not followed.
Do not cut the door for fixing glass at your end. Pl inform us about your requirement - we shall cut the door & give it to you.
- ★ ½" (12mm) gap has to be maintained between bottom of the door & flooring (door frame) for the bathroom door.

Bathroom Doors:

- ★ After trimming & Lipping of the Door, all the four sides & Bottom have to be primed & painted or sealed with wood sealant before fixing the door.
- ★ Please do maintain 3mm gap between door & frame.
- ★ Bathroom doors, room doors & exit doors have to be taken care after every two year by painting/polishing the door on all sides to increase the life of the doors.
- ★ Make sure you need water proof or non - water proof door & place order accordingly. Use only branded polish for veneer doors.

Engineered Veneer Doors:

Engineered Veneer Doors cannot be fixed at places where it is being exposed to sunlight or rainwater.
Do use latches on Bath Room doors & room doors. In case of emergency - it is easy to break the latch without causing much damage to the door.

DO NOT HAMMER THE SCREW - FIT SCREWS USING A SCREWDRIVER.

In case of any manufacturing defect, our replacement is only for our product at your doorstep.

Third Party Fittings & Accessories not covered under Warranty: Any fittings & other accessories will not be replaced by us. Fixing charges for the replacement door to be borne by the buyer.
