About Us

Multifab Engineering is a business that was founded in 2015 as a manufacturer and supplier of products like Heat Exchanger, Centrifugal Fan, Steel Storage Tank, Oil Storage Tank, etc. The huge demand for our products is a result of their excellent quality and affordable prices. In addition, we ensure that our customers receive these products on time, which has helped us build a substantial clientele in the sector.

At our company, we have a group of highly trained and knowledgeable industry veterans with years of experience. We follow moral business practices has helped us gain a trustworthy reputation in India. Because of our transparent business practices and dedication, we have a huge client base. It is the constant support and direction of our partner Mr. Pragnesh Patel, which enabled us to experience exponential growth in the current market. By providing top-notch products, we continuously strive to uphold our status as the industry leader.
