# About Us

We, **Sree Dhanam Automation Pvt. Ltd.**, established business with an aim to optimize the purchase experience of customers looking for quality assured **Current Transformer, LED Converter, LED Driver, Relays, Sensors** etc. We know that our accomplishments stem from the expertise of manufacturing partners. Therefore, by using our effective skills in business as a dealer, trader, importer and exporter, we have managed connecting with some of the best-known providers of the range. Our partners having deep technical expertise build the range as per industry specifications. We have Carlo Gavazzi Automation Singapore Pte Ltd and E.Power Co., Ltd. (S. Korea) as our associates and also boast of many longstanding partners in overseas markets of Taiwan, China, Singapore, Italy and Korea, from whom we import products.

# Our Aim

We know that different clients look out for different solutions, different advice and different product information, and many a times client want nothing short of perfection. Our aim is to not be intimidated in the face of such challenges, stay prepared for addressing the multiple client demands, and remain accessible 24/7 for our valued patrons.

# Why Choose Us?

We have already made a prominent mark in business but know that we have many milestones to scale in the future. Therefore, we continually refine our techniques so that we remain ahead of the curve. From expanding our trade capabilities to improving individual skills of employees, we do everything to take our business to the next level. Following factors show how we try to positively influence our business every day:

Vendor Base: Among our vendors, we already have premium Italy based automation company-Carlo Gavazzi and the famous E.Power Co., Ltd. from South Korea. This helps us build trust for our range of Current Transformer, Sensors and Relays
