About Us

Established in 1968 in Malerkotla, Punjab, India, K.S. Agricultural Industries Private Limited is a pioneering name in the agricultural machinery sector. With decades of experience, we have grown into a trusted manufacturer and supplier of high-quality equipment, including Super Seeder, Maize Harvester, Straw Reaper, Multi-Crop Bed Planter, Corn Harvester, Multi Thresher, Inter Row Weeder, and TD Sonalika Combine Harvester.

We are specialists in tractor-mounted and self-driven combine harvesters, with our flagship product, the KSI CROPMaster-9300, leading the way in innovation, efficiency, and reliability. Our team of skilled professionals, combined with a steadfast commitment to quality, enables us to deliver durable, performance-driven machinery tailored to modern agricultural needs. Guided by sustainable innovation, each product is designed to simplify farming operations, enhance productivity, and ensure better crop outcomes. Through advanced engineering, precision design, and rigorous testing, we turn concepts into field-ready solutions that farmers can rely on.
