About Us

With a mission to provide top-quality construction materials that meet the diverse needs of our clients, we, AK Enterprises & Infra have established ourselves as a dependable manufacturer, supplier, and trader. Our focus on quality have earned us a reputation for being a reliable company in the market that supplies a wide range of products to our clients, including Autoclaved Aerated Concrete Block, Fly Ash Brick, Super Grade Pozzolana Portland Cement, Constructions M Sand, and many more.

We have earned a respectable position in the industry within a short duration because of our quality assurance, innovation, customer focus and sustainability practices. We maintain a stringent quality control process to deliver products that meet industry standards. Quality is not just a buzzword but is finely impregnated into our business process. It plays a pivotal role in all our operations. The critical importance of quality in construction materials is irrefutable and thus, we strictly adhere to all quality parameters to meet or exceed industry standards. Our products are subjected to rigorous tests, both in the production and post-production stages to maintain consistent quality throughout our product range. Our company is led by Mr. AK. Guru, the founder, and managing director, with 8 years of industry experience. After graduation in Engineering and Management, he began his business on a small scale, and within a short span earned a distinguished position in the industry. We have successfully completed approximately 150 projects under his leadership, so far.
