## About Us

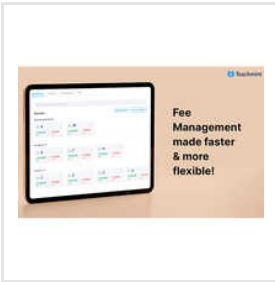

Teachmint Technologies Private Limited is a frontrunner as a service provider of Admission Management System, Integrated Platform Service, Management Software Service, Management System Service, Lesson Planner Service, Fee Management System Service, Learning Management System Service, etc., in the field of educational infrastructure, fueling the education ecosystem to bring forth innovative learning results. Since we opened our doors, our patented technology has helped millions of teachers establish inclusive, globally-minded classrooms worldwide. Today, our company serves as a one-stop-shop for all education providers, from K-12 institutions to after-school tutoring programs, colleges to content developers, and edtech companies.

Teachmint Technologies Private Limited is a leader in educational infrastructure, providing Integrated Platform Service, Management System Service, Fee Management System Service, etc. Our unique technology has helped millions of instructors create inclusive, global classrooms. Our organization supports K-12 schools, after-school tutoring programs, universities, content creators, and edtech enterprises. Three young programmers questioned, "If everything is digital, why not education?" Since then, the team has helped 1000s of schools become digital. The easy-to-use program offers a mobile app. Many of the app's handy and practical capabilities solve day-to-day problems. It started with three people in an incubator in 2015. Today, it has 60+ full-time staff serving millions of Indians and companies in 20+ countries.
