About Us

Counting machines are an important part of several businesses and government organizations as they count currencies and bills in an excellent speed and detect fake currencies. To provide our customers with the most effective counting machinery, Supertech Systems began its operations in the year of 2012. We are a New Delhi-based manufacturer and supplier of STS Prime V Bill Counter Machine, Currency Counter Machine, STS 11 Bill Counter Machine and many other machines. These are known for their performance and accurate count. To make sure that our products meet the quality standards set by the international industry, we have hired a team of quality analysts who make sure to run several tests on our manufactured products including their design, performance and many other factors.

Over the past decade, our organization has been supported by a superior distribution network which has allowed our organization to deliver our products to the major delivery destinations across the country within a committed time frame. This network is created by maintaining strategic relationships with the best logistics companies who guarantee the safety of our products during the process of delivery. Furthermore, our organization is also supported by a wide-spread warehousing facility which provides us with ample storage space to store our products in an effective manner. This warehousing unit is equipped with a digital monitoring system which allows us to supervise every activity of this facility.
