About Us

Our founders pioneered the use of Vertical Lime Kiln Technology in 1981 and have been producing lime ever since. With cutting-edge machines, Shaurya Minerals has built among the world's most advanced manufacturing facilities. Our annual installed capacity is 75000 MT of Hydrated Lime Powder and 60000 MT of Quick Lime. Our facilities also produce Lime Lump. Khimsar, in the Nagaur District, is home to our factory.

M/s Carbonate Corporation in Gotan and M/s Ankur Minerals Pvt. Ltd. in Khejarla is also part of the corporation and have capacities of 30,000 MT and 40,000 MT annually, respectively. We were the first to upgrade and modernize the method of producing lime. We offer first-rate products at affordable prices to customers in international and local markets. The highest customer service and lasting connections with our clients are two of our core values. Our highly motivated professional staff, who combine in-depth expertise with cutting-edge technology, is the key to our continued growth and success over the years. In Jodhpur, we have a wide variety of products. The fact that we have earned the ISO 9001:2015 certification attests to our reliability and professionalism in the market.
