About Us

Vedha Tooling and Solutions is a trusted manufacturer of plastic slatted flooring for livestock and animal housing. We specialize in goat and sheep farm flooring and also supply dog kennel, duck, calf, and pig flooring. Our durable, hygienic flooring is designed for easy cleaning, proper drainage, and long service life serving customers across India and international markets.

Established in 2018 and located in Pune, Maharashtra, India, the company operates with a clear objective to deliver dependable products and professional services that align with industry expectations. Our structured processes and disciplined approach enable us to support clients with solutions that combine practicality, performance, and long-term reliability.

We design, manufacture, and supply a comprehensive range of flooring systems including Calf Flooring, Dog Kennel Flooring, Duck Flooring, Goat Flooring and Pig Flooring. Each product is developed to address operational challenges such as hygiene maintenance, animal safety, and environmental durability. Our flooring solutions are engineered to perform consistently in demanding conditions while contributing to efficient facility management and improved usability.

Our organization is driven by a team of qualified engineers, designers, and technicians who bring hands-on experience and technical insight to every project. Their commitment to precision and structured execution allows us to convert requirements into well-defined outcomes. We promote a professional work culture that values accountability, innovation, and continuous skill development, enabling us to deliver solutions that meet practical and operational goals.
