

Silver Paper Roll

Product Description:

Silver Paper Roll is a high-quality laminated paper roll widely used for manufacturing disposable paper plates, dona plates, thalis, bowls, and food packaging products. Manufactured using premium-grade paper and silver foil coating, it provides excellent strength, smooth finishing, moisture resistance, and attractive appearance. These rolls are suitable for automatic and semi-automatic paper plate making machines and ensure reliable performance during production. The product is lightweight, durable, hygienic, and ideal for food-grade applications. Widely used in disposable product industries, catering businesses, and food packaging units.

Specifications:

- Product Type: Silver Paper Roll
- Material: Laminated Paper & Foil
- Usage: Disposable Plate & Dona Manufacturing
- Features: Durable, Moisture Resistant, Food Grade
- Application: Industrial & Commercial Use
