About Us

Back in the year of 2013, our company, Shri Sairam Engineering, was founded with the sole purpose of providing customers with products of the highest quality. We have successfully achieved our goals and have always provided the best solutions to meet the unique demands of our clients. We provide a large selection of products, including Paper Plate Making Machine, Camphor Making Machine, Agarbatti Making Machine, Wire Stripping Machine, Areca Leaf Plate Making Machine, etc. All of our products are meticulously inspected to guarantee that they meet the highest quality standards. We have a solid reputation as a manufacturer and supplier of such high-quality products. Furthermore, we maintain the pricing of our products as economical as possible to ensure that the bulk of customers are lured to us.

A manufacturing company distinguishes itself from its competitors based on the quality of the goods it provides to customers. The superior product line that our company, Shri Sairam Engineering offers to the customers also sets us apart from the competitors. We have always made sure that our distinctive range of products, which includes Paper Bag Creasing Machine, Areca Leaf Plate Making Machine, Agarbatti Making Machine, Wire Stripping Machine, and others, fulfils the highest quality standards. In addition, in the city of Coimbatore, Tamil Nadu, India, we have our facility situated and here we precisely manufacture the products, properly test them, and only then do we swiftly deliver them to the respective destination of the customers.
