About Us

Jain Hydraulics and Rubbers began its journey as a distributor of hydraulic hoses and rubber sheets. Over time, we have expanded our product portfolio to include a wide range of industrial solutions, including Industrial, PVC, and Rubber Hoses; Hydraulic Fittings and Valves; Silicone and Rubber Extrusion and Molding; Pneumatic Tubes, Fittings, Valves, and Cylinders; Polymer Rods, Sheets, Bushes and more. Our commitment to innovation and quality drives us to continuously enhance our offerings to cater to the needs of our clients. Supported by an experienced team and a passion for exceptional service, we proudly serve a diverse and growing customer base spanning industries including textiles, automobiles, cement, construction, oil and gas, petrochemicals, fertilizers, power plants and many more.

We believe strong business relationships are built on transparency, responsiveness, and understanding client needs. Our team works proactively to offer practical solutions, timely deliveries, and clear communication at every stage of engagement. Whether serving small businesses or large-scale operations, we aim to provide a professional experience that reflects trust, accountability, and service excellence. Our team comprises professionals with industry knowledge, operational expertise, and a solution-oriented mindset. Each member contributes to maintaining quality standards, managing supply coordination, and ensuring smooth client communication. Through collaborative efforts and a disciplined work culture, our team consistently supports business objectives and delivers dependable service experiences.
