ELITE DOMESTIC RO SYSTEM

About Us

Sarah Aquasoft is a well-known manufacturer and exporter of various R.O. (Reverse Osmosis) systems. Our broad array of residential, commercial and industrial RO systems in addition to water vending devices, mobile water ATMs and other products. Our collection includes Commercial RO System, Mineral RO Water Plant, Water Cooler Cum Purifiers, RO Dispenser, etc. We are also active as a service provider for RO Repairing Services.

Our in-house manufacturing allows us to create plants with capacities ranging from 50 to 20,000 litres per hour (lph). The corporation was established in 2001, and Rajouri Garden in New Delhi serves as its registered office. At the moment, our network consists of 115 distributors and service centres, located in 300 different places across seven states. We anticipate having 300 distributors and 600 service locations by the end of DEC 2020. Since we are conscious of the needs of our cherished customers, we are constantly working to better ourselves in order to meet their needs. Our R&D department is crucial to this. Our water purifier range incorporates a number of top-tier water purifying technologies to suit the 17 different water conditions that can arise in India. Under the direction of our mentor, Mr. Pramod Bajaj, we have effectively made a name for ourselves in the marketplace. He had the expertise and vision that allowed us to act quickly and wisely.
