## About Us

We are Sudarshan Paint from Vadodara, Gujarat- a company that aspires to redefine standards when it comes to formulating Single Pack Epoxy Paints, Weldable Paints, Hammer Tone Finish Paints, Red Oxide Primers, and Epoxy Floor Coatings. We trace our roots back to the year 1955 when our business was conceived under the aegis of Mr. Yogesh Gandhi. Over the years, we have truly mastered the art and science of making paints and primers that streamline application processes across many industry sectors. We hire people in our team who know how to create the perfect blend of products that can withstand the harshest industrial environments and deliver the performance as desired by the customer. Our coatings and paints are developed using cutting-edge techniques by these professionals so that they deliver seamless protection against chemicals and rust.

We also strike a fine balance between efficacy and sustainability and adopt only those practices in production and product packaging that do not harm the environment. Besides, as a qualified manufacturer and supplier, we render responsive customer service, and offer tailored solutions that complement the unique preferences of our customers from industrial flooring, automotive, aerospace, pharmaceutical, marine, and other such industries.

We are a business that has stood tall and remained untouched by the vagaries of time. Since we first dispatched our first order in 1955, we have stayed resolute and responsible, offering only the best of Single Pack Epoxy Paints, Weldable Paints, Hammer Tone Finish Paints, Red Oxide Primers, and Epoxy Floor Coatings that could be safely used for protecting, enhancing, and beautifying a range of surfaces and structures. Our aim is to broaden our product portfolio with expanding technological frontiers and amass clients from even the remotest of markets.
