About Us

In 1994, The Welco Lubricants, was founded with a concentration on the production and distribution of speciality lubricants. In order to increase the blending capacity and double the area of the completely automated production plant plot, we operated the first extension in 2010. Introduced its own products, including Hydraulic Oil, Engine Coolant Oil, Synthetic Diesel And Multigrade Engine Oil, Gear Oil, etc. With our hard work, we have established ourselves as a manufacturer and supplier. Further, we are counted as a service provider for Two Wheeler Bike, Engine Coolant, etc.

In 15 Indian States, Welco provides lubricant. In addition to production, Mr. Vimal Patel concentrated on the After Sales Service system to provide a positive customer purchasing experience. We are currently housed in a 23000 square foot space with covered warehouses covering a total of 25000 square feet, laboratory space measuring 1000 square feet, and a facility for housing over 75 staff. Our main location is conveniently close to several Gujarati ports and transportation hubs, allowing us to send urgent shipments of commodities to numerous neighboring states.
