About Us

Rahman International is a reputable company in the equestrian and pet accessories market and is committed to providing the best services in terms of high-quality craftsmanship and innovative products. The company, being a Manufacturer, Supplier, and Trader, aims at producing high-quality goods that would be a combination of the classical art sense and the sense of modern design. Also, with high-quality horse halters and western tack sets and customized leather dog collars, all have been designed to portray the same resilience in durability, comfort, and beauty. The philosophy is not complex but strong enough to make products that work perfectly, appear amazing, and last for years.

All the creations are made by hand and meticulously crafted using high-quality materials, which make them strong, flexible, and a perfect fit. The craftsmen of Rahman International are generations old in experience in the field of making leather into eternal objects, which are not only functional but also luxurious. It may be a long-lasting custom logo western saddle, a nylon Oxford material hay bag, or a leather bridle of good quality, but all the products are inspected with great attention to global standards and surpass the expectations of the customers.
