About Us

Shree Ganga Gowree Traders is a reliable firm that manufactures and supplies high-tech water and wastewater treatment systems for industrial and commercial purposes. Developed based on technical accuracy and the profound knowledge of the environmental duties, the company is concentrated on the development of the system that guarantees the efficient contaminant removal, the constant quality of the discharge, and the reliable long term operation. All solutions will be designed to work efficiently under various working conditions, including variable and aggressive influents, but with force and uniformity. Proficiency is expanded in small systems of waste water treatment plants, acidic effluent treatment plants, ETP, sewage treatment plant solutions, and packaged systems of sewage treatment plants. Every installation is the representation of a performance, durability, and sustainability balance. Small and space efficient designs enable easy incorporation even into small industrial spaces. Sustainable operations are implemented in system design, aimed at energy conscious processes and do not impair the effectiveness of treatment. Scalable and modular systems allow businesses to grow or change their systems as business requirements change. Control mechanisms are user friendly, hence monitoring and management are easy, and compliance and daily functioning are smooth.

Founded in 2019 in Delhi, India, Shree Ganga Gowree Traders is a company that deals with waste water treatment with its vision of offering reliable and environmentally friendly waste water treatment. The company, as a manufacturer and supplier, operates in a broad range of industrial and commercial clients who want to use reliable systems to manage effluent and sewage well. The organization focuses on the provision of small waste water treatment plants systems, acidic effluent treatment plants units, ETP to be used in industries, and packaged sewage treatment plants. The focus has been on engineered reliability, corrosive resistance construction, modular scalability, and compliance with laws and regulations. Every project is undertaken in systematic planning, accurate execution, and adherence to regular discharge standards. The company offers end to end consultation, installation, and after sales services through the guidance of technical expertise and customer centric values. Good engineering strengths and sustainable process design have helped clients to remain efficient in operations and still adhere to the environmental requirements. With creativity, responsibility, and committed service, Shree Ganga Gowree Traders has been able to establish long-term relationships with industries.
