About Us

Power Engineers is a brainchild of Mr. Sanjeev Kumar Garg, who along with his team of experienced experts has taken the company to a successful level. He and his team are proficient in bringing to the market a quality assured array of products. The formation of our company was laid in the year 1994 as a manufacturer and wholesaler of a wide assortment electrical devices including Transformer Component, Transformer Transmission Line Parts, Offload Tape, Bimetallic Connector, Temperature Meter, to mention a few. Apart from aforesaid products, we are also manufacturing Power & Distribution Transformer Metal Parts 11Kv to 66Kv.

Power Engineers holds more than two decades of experience in designing and developing a variety of Electrical Devices and Its Accessories. Our company is based in Meerut, Uttar Pradesh (India), and has skillful people at all divisions for completion of every order successfully. We are bringing forth electrical devices like Transformer Parts, Transformer Accessories, Silica Gel Breather, Changer Switch and Bimetallic Connector for commercial and residential areas. Our collection of electrical devices is largely demanded in the Indian market because it is superior in quality and longer serving. Customers wanting different dimensions and designs of electrical devices must contact us as we develop numerous dimensions and designs of devices.
