

High quality AC drive for general application from VTdrive

high quality VFD special for industry application

Power arrang
0.4kw-600kw

Power arrange
90KW-600KW

220V Single Phase Frequency Drive, 220V VT2 Series Inverter, 600 KW Power Arrange, 75 KW Soft Starter, 90KW To 600KW Soft Starter, Brake Unit Frequency Drive Braking, FIE Vector Control Inverter, FIE1 Mini 220V Inverter, FIE1N Mini 220V Inverter, High Performance Wire Brake Resistor, High Quality AC Drive, Input Output AC Choke Reactor, Online Soft Starter Cabinet, RXLG Aluminum Enclosure Braking Resistor, Soft Starter, etc.

VFD SPECIAL FOR INDUSTRY APPLICATION

VTDRIVE HIGH QUALITY AC DRIVE

90KW TO 600KW SOFT STARTER

About Us

VTdrive Technology Limited is one of the biggest names in the industry, which works with the aim of supplying its customers with the finest electrical equipment. Established in 2009, we are a Shenzhen, Guangdong, China-based manufacturer and supplier of FIE Vector Control Inverter, Input Output AC Choke Reactor, Three Phase EMI Filter, High Quality AC Drive and many other products. These are known for their performance, design, affordability, efficiency and other features.

Our operations are supported by a team of experts with years of experience in the industry. These team members belong to several domains including manufacturing, warehousing, shipping, packaging and many others. They are driven with the vision of providing the best solutions to customers and that is why they work in sync with each other. We also make sure to provide our team members with training sessions so that they stay updated with the latest changes in the industry.

Key Facts
