About Us

Jay Heat Industries is a professionally managed company with a passion for providing reliable industrial heating solutions tailored to industrial demands. As a manufacturer and supplier, the company has a strong focus on the quality of the product, functional design, consistent performance, and the satisfaction of its customers. Manufacturers can optimize the design and production of their industrial heating systems by understanding their specific needs and requirements. By understanding the industrial heating requirements, the team can create and provide solutions that distribute heat efficiently, control temperature with precision, and ensure reliable operation of the system. These include ring-type heater, paper plate die heater, perforated ceramic band heater, electric tubular heater, packaging machine heater and spiral nozzle heater etc., which are suitable for various application in different industrial processes. Both solutions are designed with a focus on robust design, corrosion resistance, safe operation and a long service life, ensuring customers a reliable, maintenance-free heating solution. Convenient use in different working environments is also provided by ease of installation and user-friendly operation.

Jay Heat Industries has a very enthusiastic group of professionals working together that possess technical knowledge, production, quality awareness and customer thinking. Engineers and technicians collaborate closely with production staff to ensure consistent usability and reliable quality in the product line. Quality folks are actively involved in construction, heating performance, temperature control, and reliability; sales and service are in touch with the end users to grasp application needs. By focusing on the practical aspects of the problem, this organization can deliver heating solutions that are energy efficient, durable, safe, and user-friendly. By working together, our approach helps the company to deliver a variety of industrial solutions, ensuring reliability and sustaining customer relationships. We are dedicated to responsible manufacturing and quality, constantly building our skills and capabilities, and continue to deliver Industrial Heating solutions for changing needs.

Key Facts

Nature of Business	Manufacturer
No of Staff	15
Year of Establishment	2007
No of Production Lines	1
OEM Service Provided	No

JAY HEAT INDUSTRIES

+919998343204

Our Products

Temperature Humidity Sensor

Aluminium Casted Heaters

Flexible Manifold Heaters

Ceramic Strip Heaters

Finned Air Heater

Aluminum Cast Heater

Screw Barrel Heater

Thermo Couple Sensor

Hot Runner Mold Heater

Water Immersion Heater

Titanium Immersion Heater

Industrial Cartridge Heaters

Bobbin Immersion Heaters

High Density Cartridge Heater

Industrial Air Heater

Finned Strip Heater
