

# Hydrophilic Adhesive

---

Our Hydrophilic Adhesive is specially designed for construction applications requiring strong bonding in wet conditions. This industrial-grade adhesive comes in liquid form and offers 100% purity for reliable and durable performance. Its hydrophilic properties ensure excellent adhesion even in moisture-rich environments such as swimming pools, water tanks, and other water-based structures.

Specification	Details
Product Name	Hydrophilic Adhesive
Grade	Industrial Grade
Physical State	Liquid
Purity	100%
Color	White
Usage	Construction Applications
Suitable Surfaces	Concrete, Wood, Metal
Special Property	Hydrophilic / Water Activated

## FAQs

**Q:** What is the grade of this adhesive?

**A:** Industrial Grade

**Q:** What is the physical state of this adhesive?

**A:** Liquid

**Q:** What is the usage of this adhesive?

**A:** Construction purposes

**Q:** Can this adhesive be used on wet surfaces?

**A:** Yes, it is hydrophilic and ideal for wet conditions

**Q:** What color is this adhesive?

**A:** White
