About Us

Established in the year 2020, NRG Global is one of the fastest-growing manufacturers and suppliers of a comprehensive collection of measuring instruments. Our range consists of Cable Float Type Level Switch, Reflex Level Indicators, Effluent water Level Indicator, Mini Level Switch, Temperature Gauge, Tank Mounted View Glass Assembly, and more. All our products are widely used for diverse applications such as chemical process engineering applications in water treatment plants, RO plants, sugar factories, petrochemicals and refineries. We manufacture all these products as per the industry norms, using high-grade raw materials and the latest technology.

Having an in-house manufacturing facility in Vadodara, Gujarat, India, we are capable of providing our customers with quality products. We also have a team of expert professionals, who are experienced and capable of understanding the customer demands and requirements in a better way. Further, they also help us in maintaining cordial relations with our customers. Under the able and efficient guidance of Mr. Rikesh Bhagat (Partner) and with his years of experience in this domain, we have gained a respectable position in the market. His ethical business policies, sound strategies and customer-centric approaches have enabled us to gain a huge customer base.
