About Us

We, Bishnuballav Battery Corporation, are one of the fastest-growing names in the power conditioning products industry, known for our personalized trading & supplying services. Our company was established in 2022 & have since been catering to the diverse needs of clients from various sectors, including chemical, agricultural, factories, manufacturing units, power, etc., by offering an array of energy-efficient electrical goods. Our range of products, including Carbon Batteries, E Rickshaw Batteries, Solar Home Lighting Systems, Battery Chargers, Home Inverters and UPS, Solar Batteries, Poly Series Solar Panels, etc., is competitively priced & procured with a focus on cost-efficiency & secure power supply. They operate steadily even in challenging situations such as overloading & overheating, providing hassle-free service with extended product durability.

We take pride in offering products that excel in performance & durability. Our vendors leverage innovative and technologically advanced production facilities to produce products that are less prone to failure & instability. As a result, our products, including chargers, solar panels, UPS, etc., have earned a reputation for being the finest in the market.
