

GC Roofing Sheet

GC Roofing Sheet is manufactured from premium-grade galvanized iron and is widely used for roofing and cladding applications. It offers excellent corrosion resistance, durability, weather protection, and long service life. The sheets are easy to install and suitable for residential, industrial, commercial, and agricultural structures.

Specification	Details
Material	Galvanized Iron (GI)
Tile Material	Galvanized Steel
Tile Type	GC Roofing Sheet
Type	Corrugated Roofing Sheet
Shape	Rectangle
Pattern	Plain
Thickness	0.80 mm
Length	8 ft
Width	3.5 ft
Features	Corrosion Resistant, Durable, Weather Resistant
Roof Material	Galvanized Iron (GI)
Usage	Residential, Industrial, Warehouses, Agriculture
Technics	Cold Rolled
Surface Treatment	Galvanized Coated
