

Prepainted Galvanized Steel Coil (PPGI)

Prepainted Galvanized Steel Coil (PPGI) is manufactured from high-quality galvanized steel coated with durable paint for superior corrosion resistance, weather protection, and aesthetic appeal. It is widely used in roofing sheets, wall panels, industrial sheds, home appliances, and construction projects. The product offers excellent formability, long service life, attractive finish, and low maintenance requirements.

Specification	Details
Product Name	Prepainted Galvanized Steel Coil
Material	Galvanized Steel
Color	Yellow
Coating Type	PPGI
Surface Finish	Color Coated
Thickness	0.30 - 1.20 mm
Width	600 - 1250 mm
Application	Roofing, Cladding, Panels, Construction
Feature	Corrosion Resistant, Durable, Weatherproof
Grade	Commercial / Industrial Grade
