About Us

The leading companies of pharmaceutical, chemical, agriculture, construction and other industries are associated with our organization, Stacklift Equipments Private Limited for availing user-friendly material handling equipment and industrial fittings. The company was formed three years back in 2020 and since then engaged in manufacturing Electric Stackers, Hydraulic Dock Levelers, Die Loaders, Battery Pallet Trucks, Telescopic Conveyors, Battery Stackers, etc. All these products are manufactured by us using finest raw materials and hi-tech machinery by following the norms & guidelines of the industry. In numerous specifications, we are manufacturing and selling the products under our in-house brand- Stacklift.

The friendly approach of our company of dealing with the clients made us a preferred manufacturer, supplier and service provider in the market. We are appreciated not only for our quality products but also for our cost-effective services like AMC Service, Commissioning Service, Training Service and Support Service. Both the products & solutions are provided with the help of our state-of-the-art infrastructural facility situated in Pune, Maharashtra. The amenities of our premises are regularly upgraded which boost the production capacity of our company. Our infrastructure is equipped with necessary machinery and equipment enabling us to achieve the predefined goals of the company. For managing the operations of the company in a smooth manner, the unit is parted into various subunits.
