About Us

Goel Power Engineers has emerged as one of India's foremost names in the power-generation and electrical engineering sector. Supported by strategically located branches across Maharashtra, Gujarat, Madhya Pradesh, Chhattisgarh, and Goa, the company has built a strong presence by staying aligned with customer needs and industry advancements. Over the decades, we have evolved from a modest contracting firm into a leading business group delivering state-of-the-art power solutions to diverse industries and applications.

Founded in 2007, in Dadra and Nagar Haveli and Daman and Diu, India, Goel Power Engineers manufactures, supplies, and exports Diesel Generator Set. With the accumulated experience and dedication to excellence of many decades, Goel Power Engineers has emerged as a reliable manufacturer, supplier, and exporter of diesel generator sets that offer dependable power solutions backed by strong service support, advanced technology, and an unwavering customer-first philosophy.
