About Us

Founded in 1980, Ashley Industries, Mumbai, is a manufacturer and supplier of a wide range of construction equipment in India. Our product portfolio includes Bar Bending & Cutting Machines, CNC Steel Bar Stirrup Bender, Mini Excavators, etc. that are the epitome of quality. The materials used in the manufacturing process of these products have undergone quality testing, and specialists have adhered to established market criteria in their administration. The items we offer are widely demanded because they have durable designs, are resistant to damage, require less maintenance, and are appropriate for the harsh Indian climate. Additionally, we take into account the expertise of experts and assign them jobs based on their area of specialization.

Ashley Industries is actively meeting the needs of buyers associated with Suspended Platforms, Mini Excavators, Vibrators, Compactors, etc. Owing to the best production facilities in our Mumbai, Maharashtra, India based unit, we are able to design and develop the mentioned products in bulk without any compromise on quality. Every customer who has purchased from us is happy and has shared positive feedback with us.
