About Us

Compressor Refrigeration Technology Private Limited is an industrial compressor trading corporation in Delhi which was founded in 2001. With great industrial knowledge and experience, our organization has secured a reputable position as an exporter, trader and supplier in the Indian market. Our whole range of Emerson Copeland Scroll Compressor, Mitsubishi Rotary Compressor, Danfoss Scroll Compressor, Refrigeration Compressor, Toshiba 2 Ton AC Copper Compressor, etc. is exported and supplied in different parts of national and international markets. Our offered compressors are precisely designed by the vendors in various specifications. The products we are offering are installed in air conditioners, refrigerators, telecommunication shelters, etc. The vendors we are associated with use the latest technologies and hi-tech equipment to develop compressors as per the global standards. We are thankful to our vendors that with their constant support, we are able to satisfy the growing requirements of the Indian and foreign clients. We share great relations with our vendors, customers as well as employees.

Compressor Refrigeration Technology Private Limited is a globally recognized trading corporation of DC Rotary Compressor, IGBT Modules, Hitachi Air Conditioner Compressor, D Freeze Compressor, Danfoss Scop Compressor, etc. The company is sourcing all these compressors from experienced and renowned producers of the country. Once our quality experts approve the procured items, they are ready to dispatch and distribute in the national and international markets. Using the resources efficiently, our vendors have made the products in varied specifications. Over the period of time, our Delhi, India based company has gained huge appreciation from the clients for ethical trade practices and fair pricing.
