About Us

Our independently owned company, Nectar Meditech, is known in the market as a leading trader, supplier, and exporter of surgical used products. Our offered range includes items like Cervical Cage With Screw, and more. The delivery of top-quality products is made possible because of the vast knowledge of our expert mentors, who are doctors themselves. The company is able to satisfy every need for high-standard, high-quality products among doctors and hospitals thanks to their acute insight and inventive vision for hospital-related things. Due to their vast experience, we are able to deliver quality products to patients, doctors, and hospitals at the most competitive market prices. After using our vast knowledge and putting it to use for many years, we have now entered the international market. With our quality products and excellent services, we have been able to cater to the requirements of our international clients as well. We accomplish this by offering every necessity a doctor or hospital may have in terms of orthopedic implants, surgical equipment, and other medical supplies. A testimony to our quality is that we are an ISO 22000:2018 certified company.

Established in 2017, in Surat, Gujarat, India, the first focus of our company, Nectar Meditech, was in the field of orthopedic implants. Later, we diversified our range to include various other medically used products. The products that we offer our clients include Titanium Pedical Hook, Lateral Elia Connector, Anterior Cervical Plate, Nasal Splint Implant, Regular Reduction Polyaxial Screw, and more. Today, we are known in the market as one of the most trusted traders, suppliers, and exporters of the above-mentioned products. Over the years, we have gained the trust of our clients and established a strong foothold in the market. With every product delivery, we aim to achieve total customer satisfaction. That further helps us with customer retention. The infrastructure of our company is spread over a large acre of land, and we are well equipped with requisite tools and technology needed for the testing of our products.
