About Us

Radial Pumps Industries is a well-known company that has been providing pumping technologies and systems for many years. To ensure client satisfaction, we manufacture all of our products using cutting-edge machinery. The company has also made significant investments in precision testing facilities to ensure efficient and enhanced product quality. The company has made a name for itself in both domestic and international markets.

Radial Pumps Industries is a world-class Pumps Manufacturer in India that is ISO 9001:2015 certified. Our product line include Centrifugal Process Pumps, Filter Press Side Suction Pumps, Thermic Fluid Pumps (Hot Oil Pumps), High Pressure Multistage Pumps, Polypropylene Pumps, Rotary Gear Pumps, Self Priming Mud Pumps, Vertical Sump Pumps (Extended Shaft), Water Separator Pumps, Submersible Sewage Pumps, etc. We also manufacture Special Purpose Pumps and Pump Spare Parts to meet the needs of our customers.

Products manufactured by Radial Pumps Industries are admired for their dependability, ease of maintenance, and low power usage. To fulfill our clients various needs, we provide customized solutions at industry-leading costs. Our talented and experienced engineers work hard to provide our loyal clients with the best products and services. Radial Pumps Industries is also engaged in designing and manufacturing chemical process pumps. Our comprehensive range offers both technical and cost-effective solutions for users individual application requirements, with customized designs available on request. We will gladly collaborate with the customers on their pump requirements and give them a competitive technical/commercial quote in return. We provide a large collection of high-quality centrifugal process pumps that can handle corrosive, abrasive, or high-temperature liquids. We are vertically integrated, having our own machine shop/production plant/testing unit and service network, allowing us to not only create the exact replacement parts but also rapidly install them for the clients.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	polypropylene centrifugal pump,centrifugal chemical pump,end suction centrifugal process pump
No of Staff	16
Year of Establishment	2011
OEM Service Provided	No
ProductRange	polypropylene centrifugal pump,centrifugal chemical pump,end suction centrifugal process pump

Our Products

RVPP Series Vertical Glandless Pump

PP Vertical Seal Glandless Pump

RVPP Series Polypropylene Pump

Single Stage Horizontal End Suction Pump

Fluid Transfer Centrifugal Pump

End Suction Pump

Centrifugal Feed Water Pump

Centrifugal Water Pump

Semi Open Impeller Pump

Corrosion Resistant Pumps

Corrosion Resistant PP Pump

Corrosion Resistant Polypropylene

Polypropylene Pump

Non Metallic Centrifugal Pump

Vertical Seal Gland Less PP Pump

Acid Transfer Pump
