## About Us

Various industries, from plumbing, HVAC systems, oil and gas exploration to irrigation and agriculture, rely on the durability and functionality of the valves offered by Sava Metal Products. We are a Gujarat based manufacturer and exporter of well-designed Lite Brass Ball Valve, Heavy Brass Ball Valve, Brass Butterfly Valve, Vertical Brass Check Valve, Heavy Brass Check Valve, etc., which we offer in different sizes and specifications to suit the application needs of customers from the aforesaid industrial sectors and even for commercial and residential uses.

As we manufacture products for extensive use in challenging work areas like chemical plants, oil refineries, and manufacturing facilities, we go miles to ensure their top-class construction and longevity. We resort to best of breed manufacturing practices to make sure that the range aligns with global quality standards. No substandard raw materials find their way into our production facilities, and only the toughest grades of brass are utilized for engineering our valves. Because of being robustly designed and functionally superior, our brass products are confidently used in irrigation systems to regulate water flow as needed in different areas or zones, in HVAC systems to control the flow of water or refrigerant, and in agriculture water pipelines fittings to inhibit the hammer effect and minimize and prevent back flow of water to the pumping systems. Need high grade valves made of finest grade brass for specific applications? Contact our firm, Sava Metal Products, without any delay.

We supply a range of products for both indoor and outdoor applications, making us the No. 1 choice of many customers. Buyers from around the world market prefer using our Lite Brass Ball Valve, Heavy Brass Ball Valve, Brass Butterfly Valve, Vertical Brass Check Valve, Heavy Brass Check Valve, etc.
