

(NS-BS2-P63D01L) Ultra Fast Electro Mechanical Boom Barrier with LED, (NS-BS2-P6S03L) Electro Mechanical Boom Barrier, 18 zone NS-DS2-V1804 Door Frame Metal Detector, 2-4 Door With Box And Supply, 5- Inch Face Recognition Access Control Terminal, 8- Inch Face Recognition (Access Control) Terminal, Access Control, Automatic Flap Barrier, Automatic Swing Barriers, Car Parking Sensor, Card Based Access Control Device, Card Reader, Cloud Monitoring Network software, Cloud Network Monitoring System, Curve Ultra Fast Boom Barrier, etc.

(NS-BS2-P6S03L) ELECTRO MECHANICAL BOOM BARRIER

FENCING BOOM BARRIERS

CURVE ULTRA FAST BOOM BARRIER

About Us

Novus Automation Pvt. Ltd. is committed to revolutionizing the movement of people and vehicles through secure areas with confidence, comfort, and expertise. As a manufacturer, supplier, exporter, service provider, the concentration is on providing automation solutions, which integrate operational consistency with responsible design. Each system will be designed to handle access effectively and yet have a quiet flow that will be smooth and uninterrupted even in a busy and demanding environment. Automation is not only meant to regulate access and exit, but also to promote security without causing any friction. Solutions are designed to operate continuously daily, provide fast response time, silent mechanical operation, and reliable accuracy, which a user is able to trust. In commercial complexes and industrial plants, residential neighborhoods, and infrastructural facilities, systems can be adjusted without any disruption to diverse environments and needs in use.

Each solution is based on compatibility and integration. Various authentication systems, in place security systems, and parking ecosystems are easily interconnected, which allows clients to upgrade without inconvenience. Interfaces are also kept simple and friendly so that monitoring and management do not become complex even when the scale of operations increases. Sturdier constructions form the basis of indoor and outdoor installations, which makes each mounting sturdy to time, weather, and heavy usage. The approach focuses on growth-ready design. Scalable solutions are future-proof and designed to expand with the growing infrastructure demands. Carefulness, accuracy, and regular quality inspection allow for maintaining performance stability and providing long-term value. The focus remains on intelligent automation to reduce congestion, improve safety, and enhance the overall user experience.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	QR code reader,mifare card reader,mifare card reader,proximity card,push buttons,l bracket,u brackets,electric locks,electromagnetic lock,door frame metal detector
No of Staff	70
Year of Establishment	2015
No of Production Lines	1
OEM Service Provided	No
ProductRange	QR code reader,mifare card reader,mifare card reader,proximity card,push buttons,l bracket,u brackets,electric locks,electromagnetic lock,door frame metal detector

Our Products

Automatic Swing Barriers

Tripod Turnstile

Novus NS-TS9-V120 Semi Automatic

Swing Barrier Gate

Swing Barrier Gate

Speedlane Swing Gate

NS-SS9-V260 Swing Barrier

NS-SS9-V225 Swing Barrier

NS-SS6-UT310 Swing Gate

Springless Boom Barrier

(NS-BS2-P63D01L) Ultra Fast Electro

NS-SS6-UT2100 Swing Gate

Full Automatic Swing Barrier

Novus Springless Boom Barrier

Folding Boom Barrier

Swing Barrier
