About Us

Noccarc Robotics Private Limited is a prominent manufacturer, supplier, and exporter that specializes in the production of high-quality ICU Ventilator. Our company is dedicated to providing state-of-the-art medical technology, playing a crucial role in supporting healthcare facilities globally. Our items are engineered to comply with the highest international standards, ensuring dependable and effective respiratory assistance for patients in critical care settings.

Noccarc Robotics Private Limited was founded in 2017, in Pune, Maharashtra, India. We manufacture, supply, and export premium-quality ICU Ventilator. Our team serves as the foundation of our success. Consisting of exceptionally skilled engineers, technicians, and healthcare specialists, our professionals contribute extensive knowledge and experience. Committed to innovation and excellence, they collaborate to design, develop, and manufacture superior items. With an emphasis on continuous improvement, our team guarantees that each product we produce adheres to rigorous quality standards while responding to the changing demands of the healthcare sector. Our company has established a robust market reputation for its reliability, innovation, and excellence since its founding. Our dedication to producing high-quality products and providing outstanding customer service has garnered the trust of clients across the globe. We are acknowledged as a prominent leader in the industry, renowned for offering trustworthy solutions.
