CONNECT COMPOSITES

COMPOSITE HARDWOOD PALLETS

CONNECTING COMPOSITES OF
QUALITY PERFECTION AND
TECHNOLOGY

One Solid Piece. No Gaps or Joints

No Moisture Problem if Chipped

Minimum Deflection

Less Wear to Machines and Moulds

Hardwood Fibre Fortification

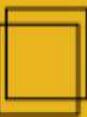

Sturdy Pallets

Strong and Homogeneous

Vibrational Stress Compatibility

Double Film Coating

Metal Reinforcement

High Density Hardwood

Warranty Against Delamination

Weather Proof

Renewable
Plantation
Hardwood

Excellent
Vibration
Transmission

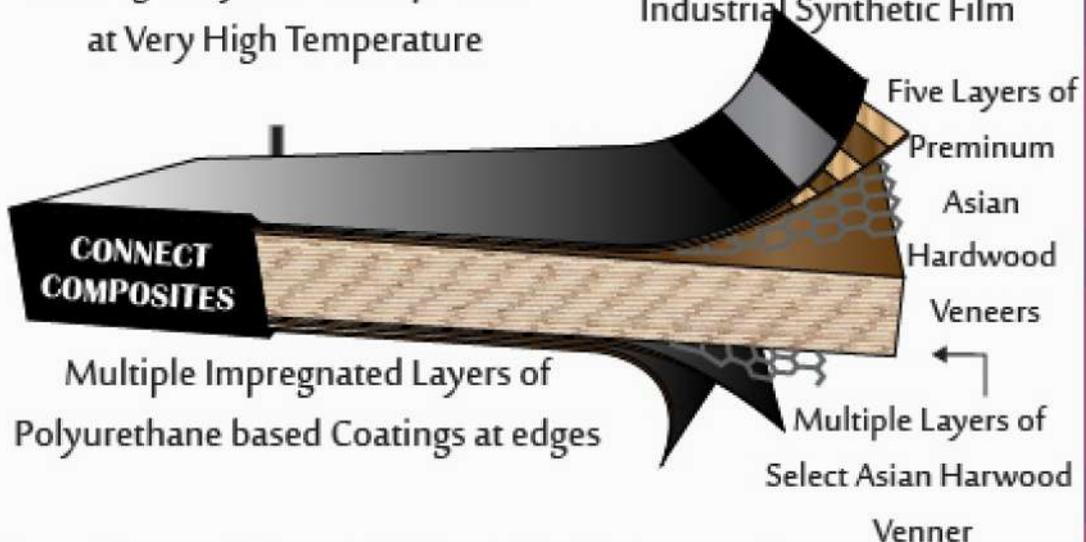

Abrasion
Resistant
Surfaces

Available in all sizes with thickness from 10mm to 70mm

Prolonged Hydraulic Compression
at Very High Temperature

Layers of Abrasion Resistant
Industrial Synthetic Film

Multiple Impregnated Layers of
Polyurethane based Coatings at edges

Multiple Layers of
Select Asian Harwood
Venner
