About Us

We established Shriuma Steel to meet the constantly rising demand for diverse steel-based goods. Since the year 2017, we have successfully established ourselves as a prominent manufacturer, supplier and exporter of a vast array of steel products. With products like HRPO Coil, HRPO Sheet, CR Coil, and many more, we are dedicated to giving clients the best choice. We make use of the best quality of raw materials, which are procured from the most reputable and reliable market vendors. We also ensure that all manufactured batches are tested in compliance with the highest quality standards. As we have been providing the most durable range of steel-based products at the most affordable prices to the customers, we have considerably expanded our business in the market.

For any manufacturing-based company, having a well-built infrastructure is always beneficial for seamlessly carrying out its operations. Likewise, we have a strongly constructed infrastructure, which has helped us effortlessly manage all the company activities. An ultra-modern production facility is part of our infrastructure, where machinery & equipment of the newest technologies are placed. In the facility, precise production of products such as HRPO Sheet, CR Coil, HRPO Coil, etc., is carried out. Once the production process is complete, all batches are tested for quality on the infrastructure itself. We also have a large warehouse in which the manufactured batches are stored orderly. Furthermore, all infrastructure-related activities are managed by our team of professionals with greatest efficiency.

Key Facts

No of Staff	31
Year of Establishment	2017
No of Production Lines	1
OEM Service Provided	No
Memberships	iso9001-2015
