## About Us

Biopest Chemicals is a trusted Manufacturer and Supplier of innovative, eco-friendly agricultural inputs that enhance soil health and crop productivity. Our portfolio focuses on biofertilizers, micronutrients, and plant support products that promote sustainable farming while improving yield and quality. With a strong commitment to science-backed formulations and field performance, we support growers in achieving consistent, profitable harvests.

We develop and supply a comprehensive line of crop nutrition and protection solutions, including Neev Raja Mycorrhizal Biofertilizer, Karn Micronutrient Mixture, Margosa Fertilizer, Kalamani Gold Fertilizer, Scorpio Wetting Agent, and more. Each product is formulated to work in harmony with the soil-plant ecosystem.
