About Us

The widespread recognition of our company, Ion Recon, is a result of the highly advanced products we offer as a manufacturer and supplier. Our business operations commenced in the year 2020, and since then, it has grown exponentially. Stainless Steel Reverse Osmosis System, Hydro Pneumatic Pressure System, Commercial Tetra Pack Filling Project, Automatic Cup Forming Filling Machine, Commercial Sewage Treatment Plant, Fruit Juice Plant, and a few other high-end products are offered by us. For the precise manufacturing of our products, we use advanced machinery & equipment. The prices of our products are also ensured to be as economical as possible. Moreover, we have always ensured that each unique product we manufacture is properly tested before being authorized to be supplied to our esteemed clients.

The team that assists a production-based company in moving forward is, in almost all cases, its greatest asset. Our team is likewise our strength, and seeks every opportunity to increase our productivity. Our entire team has many years of industrial expertise that it uses to give us unique solutions. Hydro Pneumatic Pressure System, Automatic Cup Forming Filling Machine, Fruit Juice Plant, Stainless Steel Reverse Osmosis System, Commercial Tetra Pack Filling Project, Commercial Sewage Treatment Plant, and many other top-notch solutions are developed by our expert team. Overall, our team consistently strives to increase efficiency in order to take our company to greater heights.

We have the benefit of a well-built infrastructural set-up in which all our operations are carried out with ease. Highly advanced machines & equipment are installed in our facilities and used to precisely manufacture the best range of products. We also have a spacious warehouse where the products are stored in a well-organized manner.
