

3000 LPH Industrial RO Plant, 6000 LPH Industrial RO Plant, Boiler Water Treatment Plant, Commercial Ro Plant, Compact Sewage Treatment Plant, DM RO Water Plant, Dm Water Treatment Plant, Domestic Sewage Treatment Plant, Domestic Sewage Treatment Plant stp, Dual Media Water Filter, Effluent Treatment Plant, Etp Plant Operation Maintenance Services, Etp Stp Operation Maintenance Services, FRP RO Plant, Fine Bubble Diffuser, etc.

SEQUENTIAL BATCH REACTOR

6000 LPH INDUSTRIAL RO PLANT

MOVING BED BIOFILM REACTOR

About Us

Compact Water Solutions is a trusted manufacturer, service provider, and supplier of advanced water and wastewater treatment solutions for industrial and municipal applications. Established with a strong focus on sustainability and engineering efficiency, we are committed to addressing complex water management challenges through reliable systems and structured execution. Our operations are guided by technical expertise, process integrity, and a results-driven approach that delivers long-term operational value while supporting responsible environmental practices. We specialize in designing, manufacturing, and supplying advanced water and wastewater treatment systems that meet diverse operational requirements. Our solutions include Sequential Batch Reactor, Revers Osmosis System, Moving Bed Biofilm Reactor, Industrial Waste Water Treatment Plant and Sewage Treatment Plant Operation Services. Each system is engineered with precision to ensure consistent performance, compliance with regulatory standards, and efficient resource utilization.

Beyond system manufacturing and supply, we provide professional operation and maintenance services to ensure uninterrupted plant performance. Our service model is structured to reduce downtime, enhance treatment efficiency, and extend equipment life. By combining technical expertise with systematic process management, we help clients maintain optimal operational control throughout the project lifecycle. Quality is embedded into every stage of execution. From conceptual planning to final implementation, our processes are governed by strict quality parameters and continuous monitoring. We integrate modern technologies with field-tested practices to deliver solutions that are robust, scalable, and adaptable to changing operational demands. Our focus remains on delivering measurable outcomes rather than short-term fixes.

Key Facts

No of Staff	6
Year of Establishment	2018
OEM Service Provided	No

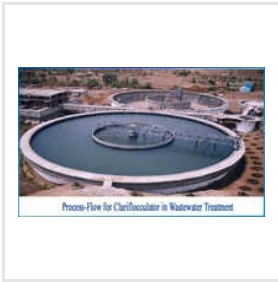

Our Products

3000 LPH Industrial RO Plant

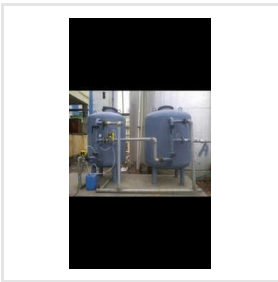

Sewage Treatment Plant Operation

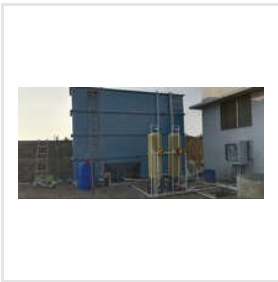

Waste Treatment Clariflocculators

Packaged Sewage Treatment Plant

Pressure Sand Filter Activated Carbon Filter

Compact Sewage Treatment Plant

FRP RO Plant

Commercial Ro Plant

Water Waste Treatment Plant

Industrial Waste Water Treatment Plant

Industrial Ro Plant

SS RO Plant

Commercial Ro Plant

Reverse Osmosis Plants

Industrial Ro Water Filter

Industrial RO Plant Maintenance Service

ADDRESS

H 803 1st,1st Lane, Vinayk
Nager,,Walnesh Wadi Kupwad 16
A Sangli, Maharashtra, India
