About Us

With the constant and on time delivery of Scientific Instruments to Scientific Research and Development Departments, we, M.G. Scientific Traders, have won the loyalty of numerous renowned customers, worldwide. We are recognized as a renowned manufacturer, exporter and supplier of quality products such as Scientific Instruments, ENT Microscope, Medical Instruments, Laboratory Instruments, Slit Lamp, Synoptophore, Microscopic Camera etc. The mentioned products find extensive use in biology, physics, dental, ophthalmology, neurology and various other fields. We develop our range in various specifications as detailed for Doctors, Researchers and Medical Practitioners.

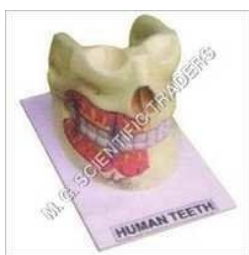

We employ advanced machines and technology in the production of Scientific & Laboratory Instruments. These facilities are available in the required quantities and configurations for the best use. Also, we strive to maintain the quality of our entire product by conducting the rigorous quality test on it. The testing activity is governed by an experienced team of Quality Inspectors, who hold rich experience in the respective field of studies.

Moreover, we have extremely talented and competent team of professionals working with us. They manage each affair of our firm with due perfection. Further, the team is highly motivated to give their best to the society by our honorable mentor, Mr. Goyal. His deep knowledge of the domain has assisted us in proficiently engineering our range in accordance with the current market scenario.
