

**CO-NTA AGAROSE RESINS**

**NI-NTA MAGNETIC AGAROSE**

**NI-NTA AGAROSE COLUMN**

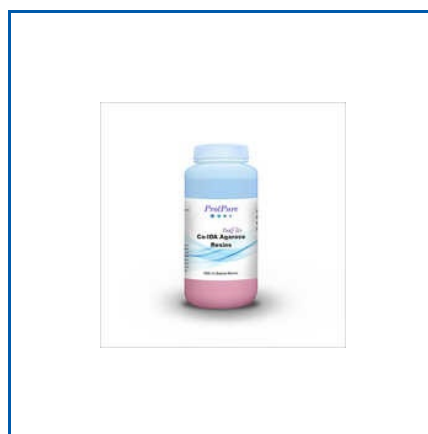

Activated/Crosslinked 2% Agarose Resins For Size Exclusion Or Molecular Sieving, Activated/Crosslinked 4% Agarose Resins For Size Exclusion Or Molecular Sieving, Activated/Crosslinked 6% Agarose Resins For Size Exclusion Or Molecular Sieving, CM Agarose Carboxymethyl Agarose - Weak Cation Exchanger Resins, CNBR Activated Agarose Resins, etc.

**CM AGAROSE CARBOXYMETHYL  
AGAROSE - WEAK CATION  
EXCHANGER RESINS**

**Q AGAROSE QUATERNARY AMINE  
AGAROSE - STRONG ANION  
EXCHANGER**

**CO-IDA AGAROSE RESINS**

## About Us

Protpure Tech Pvt Ltd. is a startup company manufacturing chromatographic resins and magnetic nanoparticles, started in 2023 by scientist and industry expert with the exclusive manufacturing facilities of agarose and dextran based matrix and their derivatives. Agarose and dextran derivative resins are extensively used for protein purification and size exclusion resins, which are equivalent to Sepharose and Sephadex resins.

Being a startup company, Protpure Tech Pvt Ltd. extends the hands to work closely with the industries for providing the method development for the protein purification. We have reached to the moderate to large scale manufacturing process to cater the need of industries. We are pleased to provide test samples to the industries and research labs on request.

## Key Facts

<b>No of Staff</b>	7
<b>Year of Establishment</b>	2023
<b>OEM Service Provided</b>	No

Our Products

Ni-NTA Agarose Resins

Ni-IDA Agarose Resins

SP Agarose:  
Sulfopropyl Agarose

Co-NTA Agarose  
Resins

DEAE Agarose  
Diethylaminoethyl

Ni-NTA Agarose  
Column

Ni-NTA Magnetic  
Agarose

Plain/ Standard/ Basic  
4% Agarose Resins For

Activated/Crosslinked  
4% Agarose Resins For

Phenyl Agarose Resins

Zn-IDA Agarose Resins

Magnetic  
Nanoparticles For DNA

CNBR Activated  
Agarose Resins

Zn-NTA Agarose Resins

Cu-NTA Agarose  
Resins

Cu-IDA Agarose Resins
