About Us

Since 1950, D. D. & Company has been serving the requirements of various industries from agriculture, paint, automotive, construction, medicine to packaging. It has been 73 glorious years that our firm has been working in the field of industrial chemicals and today, become a renowned trader, supplier and service provider in the Indian market. We are consistently fulfilling the needs of the customers by supplying precisely formulated Nitric Acid, Industrial Adhesives, Anodizing Chemical, Cutting Oil, Caustic Soda Flakes, etc. The whole range of industrial chemicals is sourced from the authorized producers of the country who are known for their credible reputation and modern production facilities.

We are grateful to our vendors that with their immense support we are able to deliver the consignments quickly to our valuable customer base. The trusted reputation we have achieved today, is the outcome of our years of hard work, ethical trade practices, transparent work approaches and client oriented policies. Not only our quality assured products are admired in the market but along with that, we are appreciated for our Transportation Services. Both our products & services are provided in adherence with the industrial standards which meet the expectations of the clients.
